

Microsoft Office 365 for Midsized Businesses

An easy-to-use set of productivity solutions that make it simple for businesses of all sizes to access email, important documents, contacts, and calendars from nearly any location.

Microsoft® Office 365 brings together cloud versions of our most trusted communications and collaboration products with the latest version of our desktop suite for businesses of all sizes. Designed to help meet your needs for robust security, 24/7 reliability, and user productivity, these services can be up and running in minutes—helping businesses improve productivity and reduce the cost and complexity of server management and maintenance.

ENTERPRISE-CLASS SECURITY & RELIABILITY

Office 365 delivers online versions of Microsoft email and collaboration systems that businesses have been using for decades, all designed for the reliability, availability, and performance needed by smaller organizations.

- Helps protect your email environment with always-up-to-date antivirus and anti-spam solutions built-in.
- Helps safeguard your data with enterprise-grade reliability and disaster recovery, thanks to multiple geo-redundant datacenters and a strict privacy policy to provide the highest level of physical and digital security.
- Financially-backed Service Level Agreement with a 99.9 percent uptime guarantee.

IT CONTROL & EFFICIENCY

Office 365 virtually eliminates the time and effort that IT people must spend managing your email and collaboration servers—while keeping you firmly in control.

- Patches, security updates, and back-end upgrades are automatically deployed.
- Web-based access to system administration and user management.
- Subscription service plans allows for more accurate forecasting of IT expenditures with predictable annual costs and no hardware or upgrade costs.
- Purpose-built migration tools streamline getting started and user adoption.
- 24/7 IT-level phone support.

USER FAMILIARITY & PRODUCTIVITY

Office 365 works seamlessly with Microsoft Outlook® and the other Office programs your employees already know, while providing them with access to email, calendars, and contacts from nearly any device.

- 25GB of mailbox storage per user without driving up storage costs.
- Password-protected sites where employees and external users can work together in real-time on documents, spreadsheets, projects, and other files.
- Shared calendaring, presence information, and centralized company directory makes scheduling easier, by showing who is available when.
- Works with the devices used most—PC, Mac, Windows® Phone, iPhone, Android, and Blackberry¹.

¹ Access from mobile devices depends on carrier network and availability.

Office 365 includes our best business-grade communications and collaboration products, priced for businesses of any size. Visit www.office365.com for more information about specific service plans.

Office Professional Plus

With **MICROSOFT OFFICE PROFESSIONAL PLUS**, you get the latest version of Office applications—seamlessly integrated with the other Office 365 online services—so you can access your documents, email, and calendars from virtually any device.
